# RFID-Based Smart Attendance Management System

Smarter Attendance. Better Workforce Control.

Our **RFID-Based Attendance Device** is a reliable and intelligent solution designed to automate employee attendance, working hours' calculation, and real-time monitoring. It eliminates manual errors, reduces time theft, and provides administrators with powerful insights through an integrated **Desktop Application and Web Portal**.

## Key Features

- **Secure and High-Speed RFID Attendance**  
Enables quick, contactless tap-based attendance with secure authentication.
- **Prevention of Proxy Attendance**  
Eliminates manual registers and unauthorized attendance entries.
- **Accurate IN & OUT Time Stamping**  
Records precise date and time for every attendance transaction.
- **Multiple Daily Attendance Entries**  
Supports multiple IN and OUT records per employee per day, if required.
- **Automatic Working Hours Calculation**  
Accurately computes daily working hours without manual intervention.
- **Late, Early Exit & Overtime Handling**  
Supports configurable rules for lateness, early departure, and overtime tracking.
- **Payroll Error Reduction (Optional)**  
Minimizes human errors by automating attendance and time calculations.
- **Visual Attendance Logs**  
Provides clear, easy-to-review attendance logs for administrators.
- **Automated Weekly & Monthly Reports**  
Generates detailed working hour summaries in **PDF format**.
- **Real-Time Web-Based Monitoring**  
Enables live attendance tracking through a secure web portal.
- **Centralized Cloud Backup**  
Ensures secure storage and backup of attendance and employee data.

- **Admin Desktop Application**  
Dedicated desktop software for RFID card assignment and employee management.
- **Comprehensive Employee Record Management**  
Maintains detailed employee profiles for long-term reference and compliance.
- **Multi-Device Support (Optional)**  
Allows deployment of multiple devices with centralized monitoring.
- **Attendance Alerts & Notifications (Optional)**  
Configurable alerts for late arrivals, absences, or irregular attendance.
- **Payroll-Ready Attendance Data (Optional)**  
Provides structured data compatible with payroll processing systems.
- **Built-In Battery Backup**  
Ensures uninterrupted operation with **1–2 hours of battery backup** during power outages.

## Dashboard Preview:

### IN & OUT Time Monitoring

- Tracks **first IN and last OUT time** for each employee
- Helps monitor punctuality and attendance discipline
- Visual logs for quick review by administrators

### Weekly & Monthly Reports

- Auto-generated **weekly and monthly working hour summaries**
- Employee-wise and department-wise reports
- Exportable PDF Format.

## Real-Time Web-Based Monitoring

- Live attendance tracking from anywhere
- Centralized server-based system
- Secure admin login with role-based access

## Ideal For

Corporate Offices

Educational Institutions

Factories & Warehouses

Hospitals & Clinics

Government Organizations

Private Organizations

✓ Accurate

✓ Secure

✓ Real-Time

## Why Choose Our RFID Attendance System?

✓ Scalable

✓ Easy to Use
